Dear friend

The donation from the Fair so generously given was unquestionably designed to liquidate the demands against the Liberator; and yours, being the only unsettled demand, will of course receive payment; being a just claim which you have just right to present without apology, especially when there are no other claims but yours—

With respect to my loan, I have not needed it and if you will pay me 50 dolls I will make you a New Years present of the balance,

With regard to my resignation, it was made from an apprehension that it would be acceptable to the Committee of the Com— But as you & the other members have manifested a wish for the continuance of my aid, I am perfectly willing to render it so long as it may be useful or desired — having no motive in view but the best interests of the cause in which we are all so harmoniously engaged

Yours with great regard

S. Philbrick

P.S. As the proceeds of the Fair have been paid over to me as Treas^r I shall have to pay the 200 dolls to H. W. Willis with whom I will leave your note, reserving 50 dolls.— Therefore You will please call on Wm^s for your note when you receive the bal. of your stipend— S.P.
